

I took this training and certified years ago. I feel like I could use a refresher. How do I do that?

Yes, as long as you took a training with one of our IM USA / IAIM-International Trainers, you can take a refresher! You can take the entire training again at 1/2 the price of the current tuition rate or you can attend any number of days (up to the full four days) at a rate of \$100 per day.

Please contact the Trainer leading your training of choice and make registration and payment arrangements with that Trainer. In addition, you will be required to submit proof of your certified status (i.e., a copy of your certification or exam) and you must be a current member with Infant Massage USA.

There is no requirement to take the exam again.
